**Subject:** subject issued

Dear Sir,

I should appreciate your surprise while receiving this letter. In any case, I am left with no options but to contact you in this manner. I got your esteemed address from the internet during my search for a reliable Individual/company who can jointly handle strictly confidential transaction with me which involves a reasonable sum of money.

Due to the nature of this business transaction, a neutral person like you is preferred. For introductory purpose, I am Isa Foday Sankoh, The son of the late Foday Sankoh, The former chairman and leader of the revolutionary united front (R.U.F) in Sierra Leone. Who was arrested in 2000 by the Ecomog deployed soldiers in Sierra Leone, and was later handed over to the united nation for war crime tribunal for trails for the crime committed by the Rebels in my country during the 10 years of civil war. And he later died in the custody of the united nation before the trail. This front was founded at the height of the 10 years civil war recently ended in my country the republic of Sierra Leone.

Following the dead of my father, his accesses of money have been investigated by the government intelligence and the official of the United Nations. As you might have heard how a lot of my father's bank account in Switzerland and North America has been frozen. There are recent rumours of my father's bank accounts in South Africa and North Korea which my mother Fatou Sankoh denies it.

Before the death of my father, he have instructed my mother to go to Johannesburg-south Africa to deposit the sum of US\$18,500,000.00 (eighteen million five hundred thousand united state dollars) in a private security company, as a family valuable, when he realized the looming danger from the government and his international inference on him.

Since the death of my father, the present government of my country, Alahji Tijan Kabba has maintained a steady policy of clamp-down on his fortune and his legacy, that is the reason why we are seeking for international help to invest this money with somebody neutral. My mother deposited the money in a consignment with a finance company in South Africa and the fund has been transported to their Europe office in the Netherlands due to the rumours of my father's account in South Africa.

Sir, following the outlined reasons for investigation, I am soliciting for your esteemed organizations confidential assistance to take custody of eighteen million five hundred thousand United States Dollars (US\$18,500,000.00) and also to front for my family in the areas of business you consider profitable.

These Consignments containing the funds have secretly been concealed and deposited with a Diplomatic Security firm where it can easily be taken delivery of by a recommended beneficiary. The consignment containing the funds will be released to you or your organization by the Security firm based on my recommendations on that note; you will be presented as our partner who will be fronting for my family in any subsequent ventures.

It is against this background that I fled the country to the Netherlands where I currently sought for political asylum, which was granted. I am making frantic effort on the best way to handle this money. So I sought advice from an attorney who advised that we must seek for a trustworthy foreign business partner whom can invest this fund in a profitable venture. I have decided to seek foreign assistance, as the Netherlands law prohibits asylum seekers from operating bank account or involve in financial transaction of any kind. Meanwhile, I sincerely ask for your assistance to get this money through your account. I and my family have decided to give 25% to your organization if you are able to help us claim this consignment. And 5% will be use for upsetting all the expenses incurred in the course of concluding this venture and the remaining 70% that will be for my family.

Please, I need your entire support and co-operation for the success of this business

ventures, your utmost confidentiality and secrecy is highly required, due to my family's present predicament. Also you stand to gain from any investment you might introduce us into after the conclusion of the transfer. Please keep this confidential until we finalize and get this money into your account for security reasons.

I am presently in the refugee camp here in the Netherlands under the United Nations and I can be reached by responding to the following email address: isaday1@zwallet.com isaday1@netscape.net

Regards,

Isa Sankoh

**Subject:** Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Jonathan S. Adelstein  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Adelstein,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

RAY MILLER

Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Adelstein,

The need for police personnel to be able to communicate in times of crisis has never been greater.

As a police officer devoted to fighting crime and ensuring the safety of our communities, I urge you to support the Consensus Plan before the Federal Communications Commission (FCC) to prevent CMRS interference to public safety communications systems.

The FCC has made a commitment to all first responders to address this critical issue, and as time passes, our risk from this problem continues to grow.

The Consensus Plan is the only proposal before the FCC that addresses this problem head-on, and is the only proposal that has the support of America's leading public safety organizations, including:

- The International Association of Chiefs of Police
- Major City and County Sheriff's Associations
- The International Association of Fire Chiefs
- Association of Public Safety Communications Officials

Together with the private sector members of the Consensus Plan, more than 90 percent of affected licensees in the 800MHz band have agreed that this is the best way to resolve this problem for public safety - TODAY. And the Plan requires no public money.

We cannot afford to wait any longer. My fellow officers and I hope that we can count on your support.

Sincerely,

TRINA BENZEL

Commissioner Jonathan S. Adelstein  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Adelstein,

The need for police personnel to be able to communicate in times of crisis has never been greater.

As a police officer devoted to fighting crime and ensuring the safety of our communities, I urge you to support the Consensus Plan before the Federal Communications Commission (FCC) to prevent CMRS interference to public safety communications systems.

The FCC has made a commitment to all first responders to address this critical issue, and as time passes, our risk from this problem continues to grow.

The Consensus Plan is the only proposal before the FCC that addresses this problem head-on, and is the only proposal that has the support of America's leading public safety organizations, including:

- The International Association of Chiefs of Police
- Major City and County Sheriff's Associations
- The International Association of Fire Chiefs
- Association of Public Safety Communications Officials

Together with the private sector members of the Consensus Plan, more than 90 percent of affected licensees in the 800MHz band have agreed that this is the best way to resolve this problem for public safety - TODAY. And the Plan requires no public money.

We cannot afford to wait any longer. My fellow officers and I hope that we can count on your support.

Sincerely,

Joe Leiter  
P.O. Box 585  
Tavernier, Florida 33070

Washington, DC 20554

Dear Commissioner Adelstein,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Anna Lovejoy
